

17. CHESAPEAKE BAY STOCK ASSESSMENT

- 17.1 Boreman, J., Barth, E., Bolgiano, N., Boswell, M. T., Colvocoresses, J., Gillelan, B., Patil, G. P., Prager, M., and Rugolo, L. (1990). Use of historical data sets to determine causes of variability and long-term trends in the abundance of white perch in the York and Choptank Rivers. NOAA Special Report SRS-90-1, Chesapeake Bay Stock Assessment Committee, NOAA. 16 pp.
- 17.2 Boswell, M. T., Linder, E., Ord, J. K., Patil, G. P., Rajarshi, M. B., and Taillie, C. (1991). Development and application of continuous and categorical multiple time series regression methods for the evaluation of the fluctuations in stock size variables in relation to the habitat quality, anthropogenic, and environmental variables. I. Development of needed Statistical theory and methods. NOAA Technical Report TRS-SAC-91-002, Chesapeake Bay Stock Assessment Committee (CBSAC-PA cooperative agreement, FY85 (for the period July 1985 to June 1986)).
- 17.3 Babu, G. J., Boswell, M. T., Linder, E., Patil, G. P., Rajarshi, M. B., and Taillie, C. (1991). Development and application of continuous and categorical multiple time series regression methods for the evaluation of the fluctuations in stock size variables in relation to the habitat quality, anthropogenic, and environmental variables. II. Results for some important fish stocks. NOAA Technical Report TRS-SAC-91-012, Chesapeake Bay Stock Assessment Committee (CBSAC-PA cooperative agreement, FY86 (for the period July 1986 to June 1987)).
- 17.4 Boswell, M. T., Fairweather, J., Lele, S., Meyers, W., Patil, G. P., Rajarshi, M. B., and Taillie, C. (1991). Development of inferential recovery techniques and randomized response survey designs and damage models for harvest estimates reported in Maryland and Virginia for blue crab and finfish. NOAA Technical Report TRS-SAC-91-003, Chesapeake Bay Stock Assessment Committee (CBSAC-PA cooperative agreement, FY85 (for the period July 1985 to June 1986)).
- 17.5 Assessment and design of surveys for harvest data pertaining to the marine fisheries of Chesapeake Bay. (1991). (With N. C. Bolgiano, C. F. Bonzek, M. T. Boswell, J. Fairweather, W. L. Myers, B. W. Parolari, M. B. Rajarshi, and C. Taillie). (1991). NOAA Technical Report TRS-SAC-91-013, Chesapeake Bay Stock Assessment Committee (CBSAC-PA cooperative agreement, FY86 (for the period July 1986 to June 1987)).
- 17.6 Bolgiano, N. C., Boswell, M. T., Babu, G. J., and Taillie, C. (1991). Analysis of white perch abundance trends in the Choptank and York Rivers. NOAA Technical Report TRS-SAC-91-024, Chesapeake Bay Stock Assessment Committee (CBSAC-PA cooperative agreement, FY87 (for the period September 1987 to June 1988)).
